GENYARD

Genyard Energy, specialized in engineering and manufacturing high-quality generators, is driven by innovation and excellence. Our products ensure seamless work with comfort and safety. At Genyard, we follow the highest quality standards in every step of our production process.

Quality isn't just a goal—it's our unwavering promise we deliver every time. Genyard powers your ambitions with smart engineering, enduring standards, and expertise behind every design.

As we begin our journey, we are dedicated to building a foundation of excellence and integrity that will guide our growth.
Our mission, vision, and values reflect our commitment to this path.

ABOUT US

Genyard Energy, headquartered in the SAIF Zone – Sharjah, UAE, specializes in the design and manufacture of high-performance diesel generator sets. With a robust R&D backbone, a customer-centric philosophy, and adherence to international quality standards, we deliver mission-critical power solutions across the Middle East, Africa, and Asia.

Our Vision: To be one of the top 3 regional power solutions provider, known for quality, adaptability, and sustainable growth.

Our Mission: To deliver innovative, reliable power solutions through cutting-edge technology and unmatched customer focus.

Our Values: We stand for unwavering quality in all our power solutions, always putting our customers first with personalized service.

Our Factory & Facility

Spanning over 50,000 square feet, this state-of-the-art facility is designed to house the complete manufacturing process of premium diesel generators under one roof, adhering to ISO standards for quality and efficiency. Every production stage—from precision engineering to rigorous testing—is optimized using Lean Six Sigma principles to minimize waste and maximize productivity. The advanced layout ensures seamless workflow integration, enabling consistent, high-performance output while maintaining strict compliance with industry benchmarks. This centralized, systematic approach guarantees scalability, operational excellence, and superior product reliability.

GENYARD LEADERSHIP

QUSAI ALAZZAM

General Manager

At Genyard Energy, we put people at the heart of everything we do—because when we invest in the right team and truly understand our customers, excellence follows. We carefully select talented individuals who share our vision and cultivate a workplace that empowers them to perform at their best. This commitment translates into high-quality, high-performance products that set industry standards. For our customers, we don't just sell solutions—we listen, advise, and deliver exactly what they need, ensuring long-term trust and satisfaction. Together, this people-first philosophy drives our success and

Mohammad Al-Khouli

Operations Manager

A seasoned professional with over 20 years of experience ensuring smooth and efficient daily operations to meet company goals.

Ahmad Barham

Sales Manager

With 20 years of experience in sales leadership, driving revenue growth through strategic planning and strong customer relationship management.

Adnan Hanif

Supply Chain In-charge

With 10 years of expertise in procurement, logistics, and store management, responsible for timely sourcing and maintaining efficient supply chain operations to support business continuity.

Shafiq Abu Saada

Projects in-charge

With over 20 years of hands-on expertise in generator applications and project execution, ensures successful delivery from planning to commissioning.

Mais Hasan

HR Head

With 10 years of experience managing recruitment, employee relations, and performance development to build a motivated and productive workforce.

PRODUCTS AND SERVICES

Customized Power Generators Solutions

At Genyard, we offer an extensive range of customization solutions designed to meet and exceed the client's expectations. Custom engineered genset special ratings are configured to meet the unique environment.

Lighting Towers

Engineered for rugged environments, our portable light towers deliver dependable illumination for critical nighttime operations.

Spare Parts

Built for reliability, our genuine spare parts ensure peak performance and extended life for your power systems.

After Sales Services

Committed to your uptime, our expert after-sales support keeps your operations running smoothly with timely maintenance and technical care.

ATS & Synchronizing /Switchgear

Designed for safety and efficiency, our advanced switchgear solutions including ATS and synchronizing panels provide seamless control and protection for your electrical infrastructure and various applications.

Sheet Metal Works

Precision-crafted for durability, our sheet metal works support custom fabrication needs across industrial and commercial applications.

CSR

At Genyard, our commitment to Corporate Social Responsibility (CSR) is woven into every aspect of our operations. Beyond supplying reliable power solutions, we actively work to create a positive impact on our environment and our communities.

Environmental Initiatives

Recognizing our role in environmental stewardship, we have integrated several green measures across our facilities. Plant panels mounted on walls enrich our workspaces with greenery, improving air quality and supporting biodiversity. Additionally, we've installed specialized filters on our testing exhaust pipes to reduce emissions, helping to minimize our environmental footprint.

Sustainability Commitment

Our approach to sustainability extends beyond compliance—it's a guiding principle in product design, operations, and services. We continually seek ways to reduce waste, improve energy efficiency, and promote the responsible use of resources across our value chain.

Community Involvement

We are dedicated to giving back through active community engagement. From supporting local projects and educational initiatives to participating in volunteer programs, our team is committed to making a meaningful difference beyond business.

Through these initiatives, Genyard strives to power progress responsibly—building a future where innovation and sustainability go hand in hand.

OUR EXPERTISE IN GENERATOR SUPPLY & INSTALLATION

Our Expertise in Generator Supply & Installation

At Genyard Energy, we don't just build generators; we provide complete power solutions. Our expertise in generator supply and installation is built on strong technical skills, a history of handling large projects, and deep industry knowledge.

Technical Capability

Our team of expert engineers and technicians uses advanced tools to design and integrate power systems perfectly customized to your needs. This includes accurate sizing, advanced system design, seamless electrical integration, and solutions for noise and emissions. We also perform rigorous testing and commissioning to ensure everything works flawlessly.

Large Project Execution

We've successfully delivered complex, large-scale generator projects across the Middle East, Africa, and Asia. From initial planning and logistics to on-site installation and regulatory compliance, we manage every step. Our goal is timely, safe, and efficient project completion, followed by excellent post-installation support.

Industry Experience

With years of experience, we understand the unique power demands of various sectors. We've delivered specialized solutions for telecommunications, healthcare, data centers, oil & gas, construction, manufacturing, and hospitality. This broad experience means we can tackle any power challenge, big or small.

SECTORS

Oil & Gas

Fueling exploration and extraction with consistent support for seamless operations.

Agriculture

Powering growth from seed to harvest, ensuring steady yields.

Construction

Driving development from groundwork by completion with steady supply.

Industrial

Boosting production with rugged systems designed for harsh environments.

Health Care

Uninterrupted energy to keep critical care running 24/7.

Telecom

Reliable power that keeps you connected anytime, anywhere.

Data Center

Maintaining continuous operation to safeguard data and critical systems.

Utilities

Improving and reinforcing network stability and efficiency with customized solutions.

Remote Areas

Extending supply to isolated locations with dependable service.

Government

Supporting vital public services and infrastructure with dependable systems.

Rentals

Adaptive solutions tailored for temporary needs, delivering apt performance.

CUSTOMER SUPPORT & SERVICES

24/7 MAINTENANCE SERVICE

At Genyard Energy, we understand that power interruptions can severely impact your productivity and operations. That's why our 24/7 Maintenance & Support service is designed to provide continuous care and immediate response—anytime, day or night. Our expert technicians are always on standby to handle emergencies, perform routine maintenance, and ensure your generator systems are running smoothly at all times.

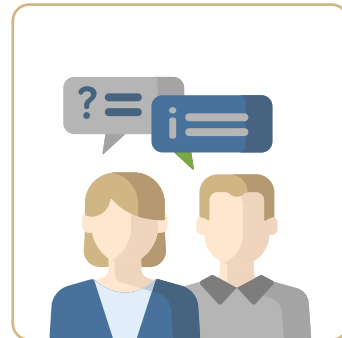

WARRANTY & AFTER SALES SERVICE

At Genyard Energy, our commitment to quality doesn't end at the point of sale. Every generator comes backed by a comprehensive warranty that ensures protection against manufacturing defects and performance issues. We stand behind our products, offering dependable coverage and hassle-free support to give you complete confidence in your investment.

PRE-PURCHASE SUPPORT

At Genyard Energy, we believe that the right power solution starts with the right guidance. Our Pre-Purchase Support service is built to help you make informed decisions before investing in a generator system. From technical consultations and site assessments to product recommendations tailored to your operational needs, our team is here to guide you every step of the way.

PRODUCT TRAINING & SUPPORT

At Genyard Energy, we believe that empowering our clients with knowledge is key to maximizing equipment efficiency and longevity. Our Product Training & Support services are designed to ensure your team is fully equipped to operate and maintain our systems with confidence. Our experts provide comprehensive support tailored to your specific setup, helping you minimize downtime, optimize performance, and maximize the value of every product.
